PRATIKSHA TRIPATHI

Product Designer | SaaS & Enterprise UX | International Product Experience (Canada & US)

tripathi.pratiksha3555@gmail.com | +91 78148 31017 | Uttar Pradesh, India

Professional Summary

Product Designer with 2+ years of experience designing SaaS platforms, enterprise applications, healthcare products, e-commerce solutions, websites, and mobile experiences. Experienced in owning the end-to-end product design lifecycle, from discovery and UX strategy to prototyping, developer collaboration, and post-launch optimization. Currently leading the design of a WhatsApp Business API platform for a Canada-based organization while contributing to digital products for US-based clients. Skilled in product discovery, competitive analysis, stakeholder collaboration, workflow design, and AI-assisted design workflows.

Core Competencies

Product Design • SaaS Products • Enterprise UX • Product Discovery • User Research • Information Architecture • User Flows • Wireframing • Interactive Prototyping • Design Systems • Competitive Analysis • Market Research • Stakeholder Management • Cross-functional Collaboration • Usability Testing • Responsive Design • AI-Assisted Design Workflows

Professional Experience

Product Designer | Transket (Canada-Based SaaS Company)
Jun 2025 – Present
• Lead the end-to-end design of a WhatsApp Business API platform, transforming business requirements into scalable and user-centered product experiences.
• Design enterprise workflows including campaign management, template management, analytics dashboards, contact management, user administration, and automation journeys.
• Create user flows, information architecture, wireframes, high-fidelity interfaces, and interactive prototypes for product initiatives.
• Collaborate with international stakeholders, developers, and business teams to deliver solutions aligned with business goals and user expectations.
• Conduct ongoing market research and competitive analysis to identify opportunities and product differentiation strategies.
• Monitor Meta platform updates and feature releases, translating insights into product enhancements.
• Utilize Claude, ChatGPT, and Figma AI to accelerate research, UX documentation, ideation, and design exploration.
• Drive continuous product improvements based on stakeholder feedback and evolving business requirements.

UI/UX Designer | Keyideas Infotech Pvt. Ltd.
Dec 2024 – May 2025
• Designed user experiences for multiple US-based client projects, including e-commerce platforms, websites, landing pages, and digital products.
• Improved usability and engagement through UX audits, design optimization initiatives, and usability evaluations.
• Collaborated with project managers, developers, and stakeholders to transform business requirements into intuitive digital experiences.
• Conducted competitor analysis and market research to benchmark experiences and uncover optimization opportunities.

• Developed responsive interfaces and marketing assets aligned with usability, branding, and conversion goals.

Founding Member & Product Designer | Flavum HealthTech
Jun 2024 – Nov 2024
• Contributed to the product vision and design strategy of a healthcare technology startup focused on women's health.
• Designed end-to-end experiences across web, mobile, and tablet platforms for health tracking, consultations, appointment scheduling, and medication reminders.
• Conducted user research, wireframing, prototyping, and usability evaluations to support product decisions.
• Worked closely with developers and stakeholders to transform concepts into scalable healthcare solutions.

CGI Compositor | CitrusInk Studio
Apr 2022 – Feb 2023
• Created visual compositions by integrating live-action footage, 3D assets, and visual effects.
• Contributed to productions including The Centerville Ghost and The Dragon Prince Season 4 (Netflix).

Featured Projects

• WhatsApp Business API Platform – End-to-end SaaS product design covering campaign management, analytics, automation, user administration, and communication workflows.
• Flavum HealthTech – Women's healthcare platform supporting health tracking, consultations, appointments, and wellness journeys.
• DS Diamond Scassai – Optimized jewelry e-commerce experiences focused on product discovery and purchasing workflows.
• Shopify Ring Builder & Smart Filter Plugins – Designed customization and product search experiences for jewelry customers.
• Keyideas Website Revamp – Improved UX, SEO performance, and engagement.
• Scholars Insight – College discovery platform enabling institution exploration, alumni networking, and career guidance.
